

CITY OF RYE Engineering Department

CROSSWALK REPLACEMENT POLICY

The City of Rye is in the process of standardizing the crosswalk designs throughout the City. All new and replacement crosswalks shall be Continental Style as per the detail below and in accordance with New York State Department of Transportation Specifications.

Any contractor that disturbs a crosswalk in the process of excavating a street shall be required to remove the entire crosswalk via milling and re-paving that section of roadway or by other methods as determined by the City Engineer. The crosswalk shall be replaced as per the detail below.
